

My name is Manisha Jose and I am in my second year of Mechanical Engineering and I am running for the position of Vice President of Student Affairs. The responsibilities of VP Student Affairs are to assess and act upon the needs of the students and to support college recruitment. In doing this, VP Student Affairs organizes various events such as Orientation, engineering Week, Mental Health Week, and Tutorials. I believe that I would be a good fit for this position because I have experience with organizing such events as I am the current Charity Commissioner for the SESS. As the Charity Commissioner, I had the opportunity to organize a Blood Drive and I am excited to say that it was a huge success. This is the same passion that I want to bring to this position. I also believe that I would be a good fit for this position because I genuinely care about the well-being of the students and want to ensure that your academic needs are met. I want to be your voice.

Our current VP student Affairs has been doing a phenomenal job this year and has brought back Mental health week. I would like to continue her excellent work. In saying this, I would like to work hard and make sure that we are able to bring in therapy dogs for mental health week.

To conclude, I believe that I would be a good fit for this position because I genuinely care about this college and want to be your voice. I will work very hard to ensure that your academic needs are met and that the next year runs as smooth as it possibly can.
