OCTOBER 29TH

2018

President's Message

Hello SESS members,

I hope everyone had an awesome Halloween weekend and are excited for next weekend for the Halloween Hangover parties (courtesy of civil, environmental, and geological). There's literally nothing going on this week... we're all dying from midterms or recovering. That being said there are a few exciting things this month!

Movember

It's Movember! Movember is a leading Canadian charity changing the face of men's health by addressing health issues faced by men: prostate cancer, testicular cancer, and mental health and suicide prevention. To learn more about how to get involved with Movember visit ca.movember.com or stop by the SESS office! This year we will be hosting our own Movember page and will be letting you know more as about it soon!

2019 Undergraduate Project Symposium

The 2019 Undergraduate Project Symposium (UPS) is now accepting submissions. The UPS is an annual event highlighting the research, scholarly and artistic works of undergraduate students at the University of Saskatchewan. The 2019 Symposium will take place on Thursday, January 31, 2019, in the North Concourse of Place Riel. \$4000 in prize money will be given away on January 31. To submit your project, visit <https://ussu.ca/main-page/events-page/undergraduate-project-symposium/>.

That's all from me this week. I hope you all finish off your midterms successfully and can make it through the week alive. Good luck!

Q: What do engineers use for birth control?

A: Their personalities.

Kind Regards;

Shanleigh McKeown
SESS President

Week at a Glance

Civil Spring Roll Sale ENVESS donuts, coffee & hot coco			IEEE Pizza 11am outside 2C02	GESS Pancake Sale 8-10:30am outside 2C02

Message from the College of Engineering

As part of the College of Engineering outreach programming, the college is looking for undergraduate students who will be interested in becoming ambassadors for the college. Student ambassadors will be tasked with reaching out to high school(s) (specifically their alma matter) to make presentations and give information about our institution, our programs, and what opportunities we can offer to prospective students. The slides for the presentation will be prepared by the Engineering Student Centre and briefing session will also be provided to help you clarify expectations and messaging.

If you are interested, please email noreen.predicala@usask.ca with your information (Name, student number, High school you graduated from and other high schools you want to visit) by October 31st, 2018. If you are selected, you will be contacted by email to schedule briefing and preview of the presentation. Ambassadors will be compensated with a small honorarium.

First Year Design Challenge – Spectrum 2019

The First Year Design Challenge for Spectrum 2019 is an event where first-year engineering students in groups of 4 will be given a problem, and must work collaboratively to design and build a solution to this problem using a variety of materials. Groups must then present and test their solutions, which will be judged based on effectiveness and creativity.

- The prize for 1st Place is \$1000!
- Snacks and lunch will be provided at the event.
- Event Date: January 12th from 9:00am-6:00pm.

Registration Details:

- \$40 per group.
- Deadline November 22nd

To register go to:

- <https://spectrum.usask.ca/get-involved/first-year-challenge.php>

If you have any questions about the event, please email first.year.challenge@spectrum.usask.ca

We hope to see you there!

Heather's corner

As a new edition to the Fo we are introducing an advice column by Heather Casewell. Please email advice@sess.usask.ca concerns and she will choose some to address the following week.

Do you want to grow a cool moustache and raise money doing it? You're in luck because November is right around the corner and the SESS wants you to participate this year for Movember! Sign up or donate on the Movember Foundation website at <https://mobro.co/sess2016?mc=5>

Our goal this year is to raise \$200 and with your contribution we know we can do it!

To kick off the start of Movember, we have planned three events that we would like you to come out to. Check out the Movember posters around the college for more information on the events as well as the SESS Facebook Page for updates on this and any other SESS events.

ChESS Bowling

GRAB YOUR BALLS!

Hunter's Eastview Bowl

9:15-11pm Thursday, November 8th

\$15 for non-members

\$10 with memberships

CAMPUS REC CLUBS

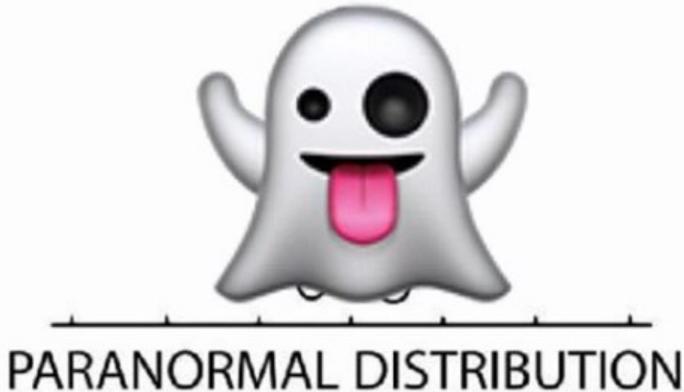

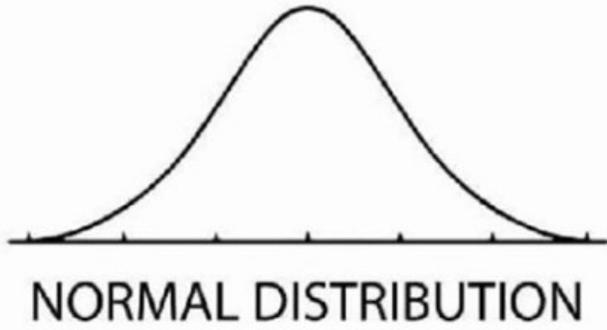

Campus Rec offers a wide range of clubs that run for both terms!

Club offerings this year include:

- Swing Dance
- Yoga
- Triathlon
- Kayaking
- Karate
- Figure Skating
