## PRESIDENT'S MESSAGE

Hello!

I apologize for my absence last week... Midterms are a doozy this time around.

But things are looking up, especially this Friday with the IEEE Beer Night: Chapter Two. The first go-around was a fricken blast, and I'm sure this one will be hella lit too.

The Saskatoon Engineering Competition (SEC) was a great success this past Saturday! Shoutout to Mykyta Ivanov for putting it all together, and congratulations to our winners! Our competitors will be moving on to the Western Engineering Competition (WEC), which is hosted by little 'ol USask this January.

Ag Bag Drag is wrapping up this week. If you haven't earned Eleanor yet, this is your last chance (till next year!) so go out there and steal that car (while protecting the Eng Van).

The SESS also has our second Wing Night coming up on Friday, November 1st. Be sure to come out and munch on some \$0.49 pieces of heaven with us!

That same day also sees the IEEE's Big Brothers Big Sisters of Saskatoon X-Mas Party Fundraiser BBQ. This is a licensed event held in the Hardy Lab where all the proceeds go towards ensuring the kids supported by BBBS have an amazing Christmas.

Midterms are still going strong, and I hope you are too!

Now for the weekly Prez Joke:

What do you get when an engineer sees a blue Ag Bag Drag car?  
> A red Ag Bag Drag car, 1 hour later.

Enjoying my new engineering tattoo,  
Dayne Gawley

**Want to help out to make sure those all around Saskatoon have a Happy Halloween?** The SESS will be joining the USSU Food Center for **Trick or Eat 2019**, happening on October 31st from 6-9pm. It's simple—dress up and go door-to-door with your friends to collect donations for the Saskatoon Food Bank. There will be plenty candy and refreshments provided!

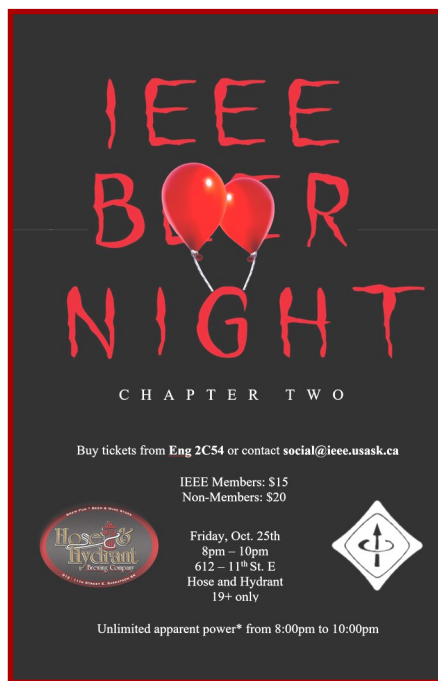

**Come sign up at the SESS office before October 30th!** For more information, contact Taylor Voth, the Charity Commissioner, at [charity@sess.usask.ca](mailto:charity@sess.usask.ca) or the USSU Food Center.

**Are you interested in international development and making a positive change?** Are you wondering about what entrepreneurship is and not sure where to start? If so, join Engineers Without Borders at our Member Learning this week! It's happening on **October 22<sup>nd</sup> from 6pm to 7pm in Eng 2B52.**

This week's Member Learning topic is 'Entrepreneurship: an Attitude rather than an Identity'. Come join us to set a new goal for your career! Hope to see you there! :)

### Rules for Ag Bag Drag

- Obey all traffic laws when chasing/evading (it's better to get captured than to get someone killed)
- If you're not having fun, you're not doing it right
- Both the Ag Bag Drag car and the Eng Van must be "Out and Available" each night (at the very least, parked somewhere it can be found and stolen)
- The keys to both vehicles must be left in/near the vehicle when not in use
- Both vehicles must remain unlocked when not in use
- The vehicles are not to be taken outside city limits
- If you capture a vehicle, give the previous drivers a ride home (don't be a dick).
- The Ag Bag Drag car **MUST** always have the details for the Ag Bag Drag party painted on, regardless of which college has the vehicle.
- **DO NOT** spray paint over windows, mirrors, lights, etc.
- **NO DRINKING AND DRIVING**

## 100 YEARS FLASHBACK

### 2004: Commerce Stunt - Stack 'Em Up!

Back when Edwards and Eng had a morale contract, a classic prank was to meticulously stack every chair and table in the Commerce lounge to the roof and secure it with saran wrap (engineers are all about safety, you know).

**Have you ever wondered what an underground potash mine looks like?** Or how to process potash? On October 28th, CIM Saskatoon Student Chapter is hosting a money and mill tour of Nutrien's Cory Mine and Mill!

This mine and mill tour is an excellent opportunity to see part of how potash mines function. Attendees will have the opportunity to learn about the potash processes at Cory. Attendees will also have the opportunity to ask engineers relevant questions. Buy a ticket now!

Hi Eng friends! Your friendly neighborhood nutrition students have been given a project to design a program to promote Nutrition Month in the college next March. There is a short survey attached below that we ask you to fill out as soon as possible! **In return for your participation, there will be a draw for a \$10 Amazon gift card.** Anyone who completes the survey **BEFORE** November 1st at 4PM will be entered in the draw.

Thanks so much for your participation!

**NOTE:** In either the next month or two, and certainly for the new year, I will be removing the Rebus puzzles. They have gotten dry for many students, which I completely understand. Please send me any suggestions for new kinds of puzzles to replace them in an Eng Info survey. The link is beside the sudoku, and it will only take a minute. I appreciate all of your feedback.
